Introduction

Thanks for using TunePat Tidal Media Downloader for Mac!

TunePat Tidal Media Downloader for Mac is a smart tool that can help you download tracks from Tidal to an open-source format like MP3, AAC, AIFF, WAV, FLAC, and ALAC. With TunePat Tidal Media Downloader, you can directly download Tidal music from the Tidal web player or the Tidal App. Meanwhile, TunePat Tidal Media Downloader supports keeping Hi-Res audio quality after conversion for Tidal subscribers. Besides, this program supports preserving the ID3 tags, including titles, artist names and albums, and it is fully compatible with the latest macOS system.

Key Features

- Download Tidal music tracks, albums, playlists, podcasts, or lyrics to Mac.
- Convert Tidal music to plain MP3/AAC/AIFF/WAV/FLAC/ALAC format.
- Preserve up to Hi-Res audio quality after conversion.
- Keep all ID3 tags information & 10X faster conversion speed.
- Handy tools: Format Converter and Tag Edit.
- Enjoy the converted Tidal songs on any device offline.

System Requirements

- macOS 10.15 or above;
- 1GHz processor or above;
- 256 megabytes (MB) or higher of RAM;
- 1GB of available hard-disk space or higher;
- 1024*768 resolution display or higher Monitor.

Purchase TunePat Tidal Media Downloader for Mac

Tips: To buy a license key for TunePat Tidal Media Downloader for Mac, click here.

1. Why should I buy TunePat Tidal Media Downloader for Mac?

The free trial version of TunePat Tidal Media Downloader allows you to convert the first minute of the Tidal audio files. After you purchase this product, you will receive your Registration key to unlock the trial version limitations.

2. What Benefits do we have after Registration?

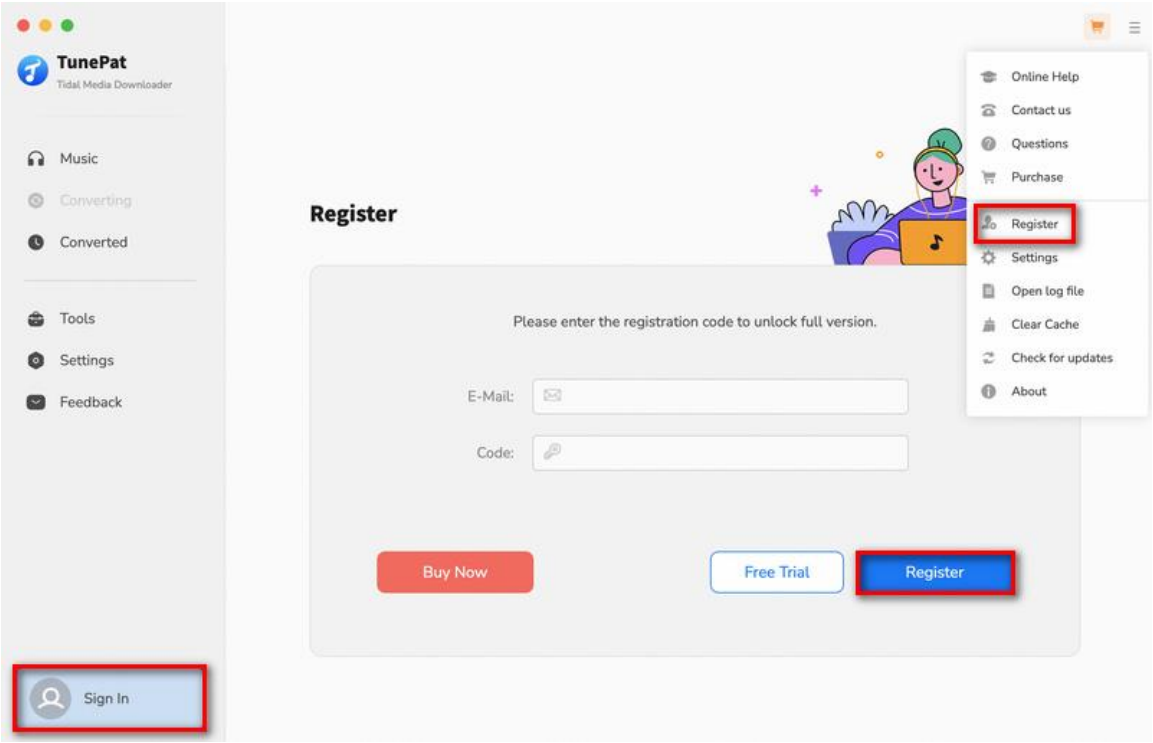
- Get any Tidal music or podcasts you like at a fast conversion speed.

- FREE upgrades to the latest versions of the same product.

- FREE technical support.

Register Tunepat Tidal Media Downloader for Mac

Step 1: Run TunePat Tidal Media Downloader on Mac. Then, you can directly click the "**Sign In**" to open the registration module or click the Menu button ☰ and "**Register**" to finish the registration process.



Step 2: Copy and paste the registration **E-mail** and **Code** you received into the popup registration window, then click the "**Register**" button.

Step 3: Once finished the Registration process, the limitations of the trial version will be removed.

Tips for Smooth Registration and Usage:

1. Ensure a stable Internet connection on your computer.

2. Remember that the registration code is case-sensitive, and avoid adding any extra spaces before or after the registration information. To be safe, we recommend copying and pasting the registration information directly into the pop-up dialog.

3. If you haven't become a member yet, make sure to click on "**Buy Now**" to complete the payment and obtain the license after our company provides the Registration Email and Registration key following the purchase.

4. Double-check that you have downloaded the correct program version, as license keys are specific to each program and its version, including the operating system (Windows or Mac).

5. Please note that each TunePat license key is valid for a single computer device. Registering and using the same key on multiple devices simultaneously will render the registration code invalid, preventing successful registration.

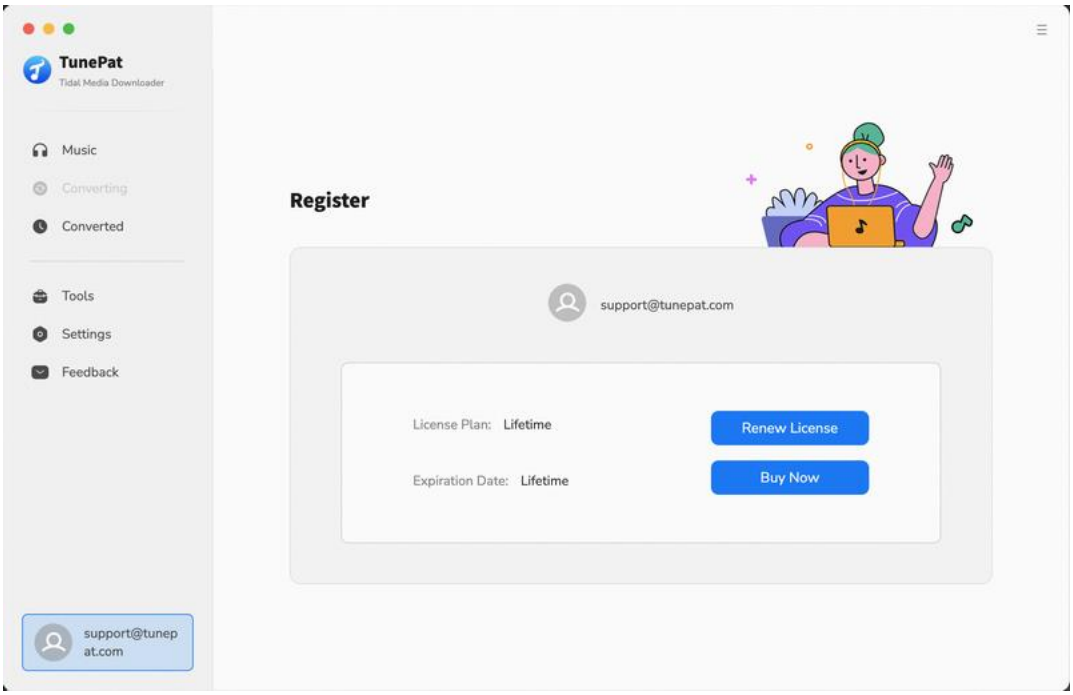
Renew Tunepat Tidal Media Downloader for Mac

At TunePat, we prioritize flexibility and convenience for our users. Alongside our lifetime license, we offer monthly and annual subscription options to cater to diverse preferences. With our auto-renewal models, you can enjoy uninterrupted media access hassle-free.

If you no longer require the license key, our dedicated customer service team is available at support@tunepat.com. Contact them before the next deduction date, and they will gladly assist you.

For those with auto-renewal, a new registration code will be sent directly to your email. However, please note that your program's license key will not update automatically. Follow these simple steps to update your license status smoothly:

Step 1: Find the blue account button at the bottom left of your screen.
Step 2: Choose the **Renew License** option from the menu.
Step 3: Copy and paste the new code provided into the designated field.
Step 4: Click **Confirm** to complete the update process.



Installation & Interface

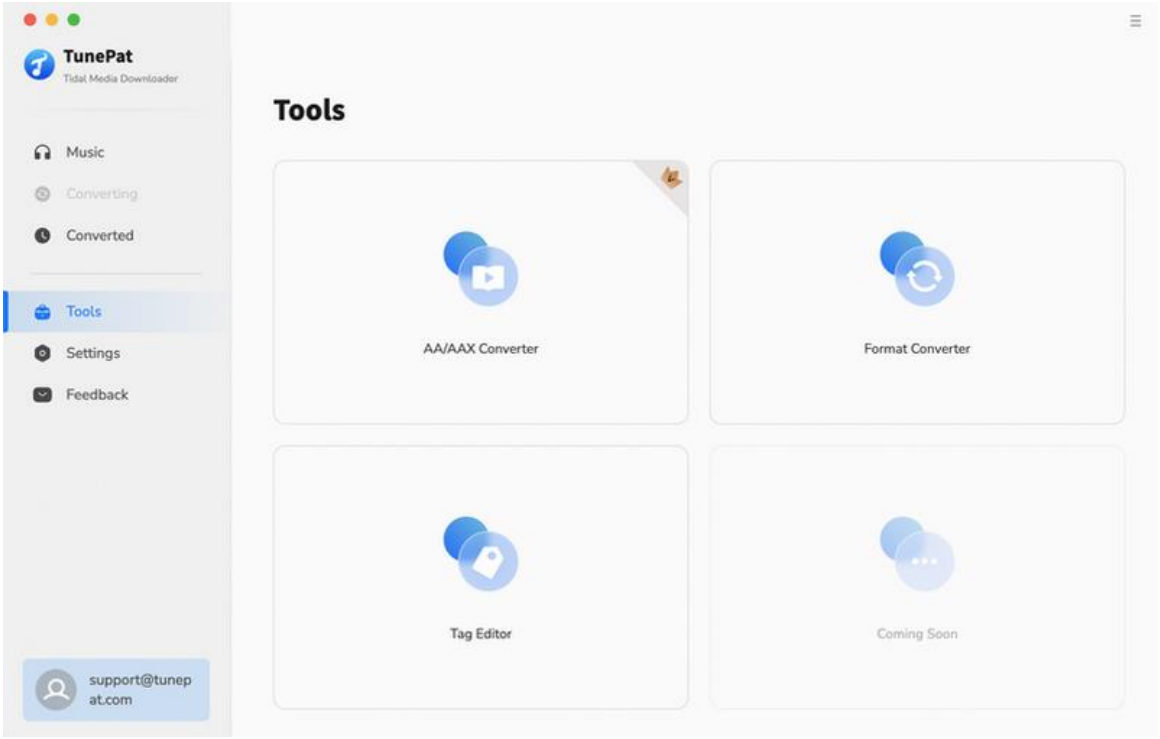
You can see the **Tools** options from the toolbar on the left. You can use the tools to convert AA or AAX audio files, edit the tag information of music files, convert the format and more.



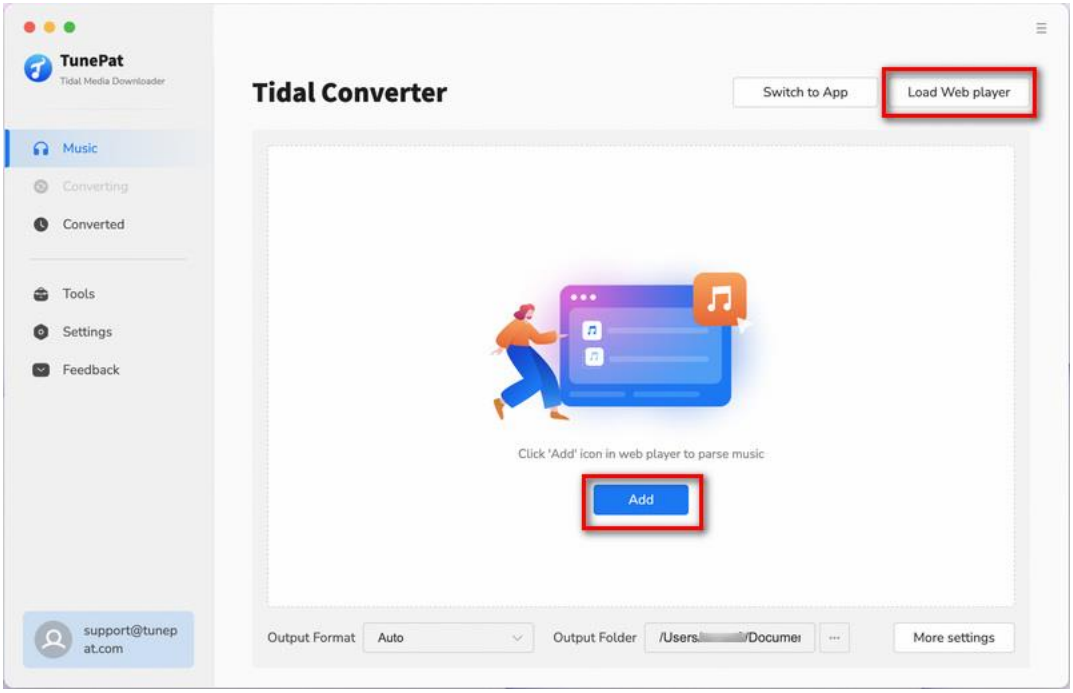
Tutorials

- Add Tidal Music to TunePat (from the App or Web Player)
- Choose Output Settings
- Convert Tidal Music Files to a Mac
- Check Conversion History

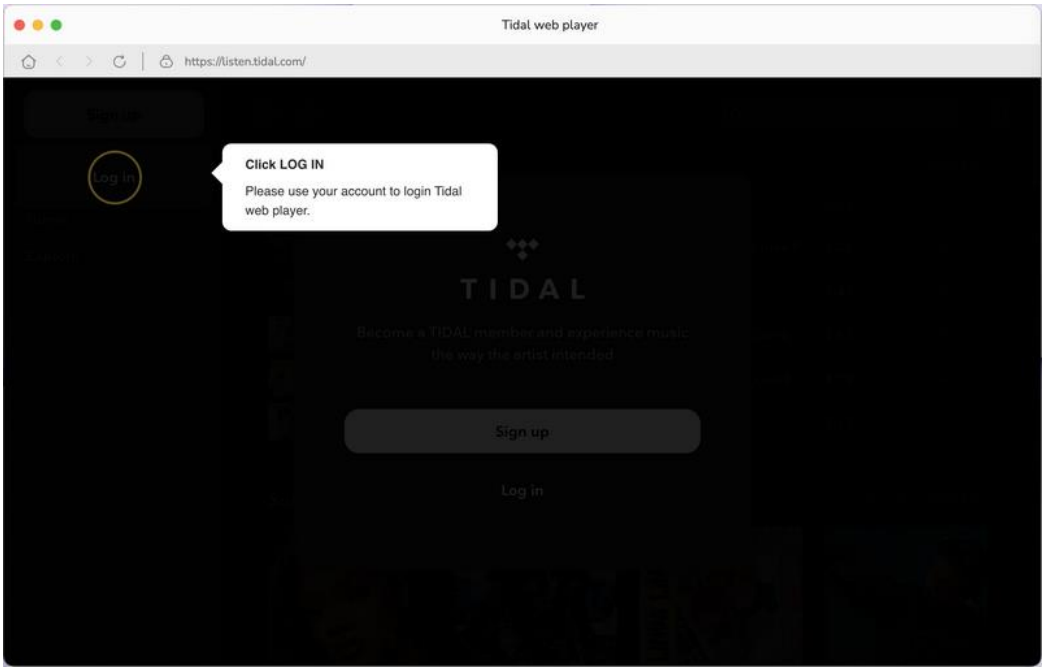
Add Tidal Music to TunePat (from the App or Web Player)

- **Get TIDAL Music from the Web Player**

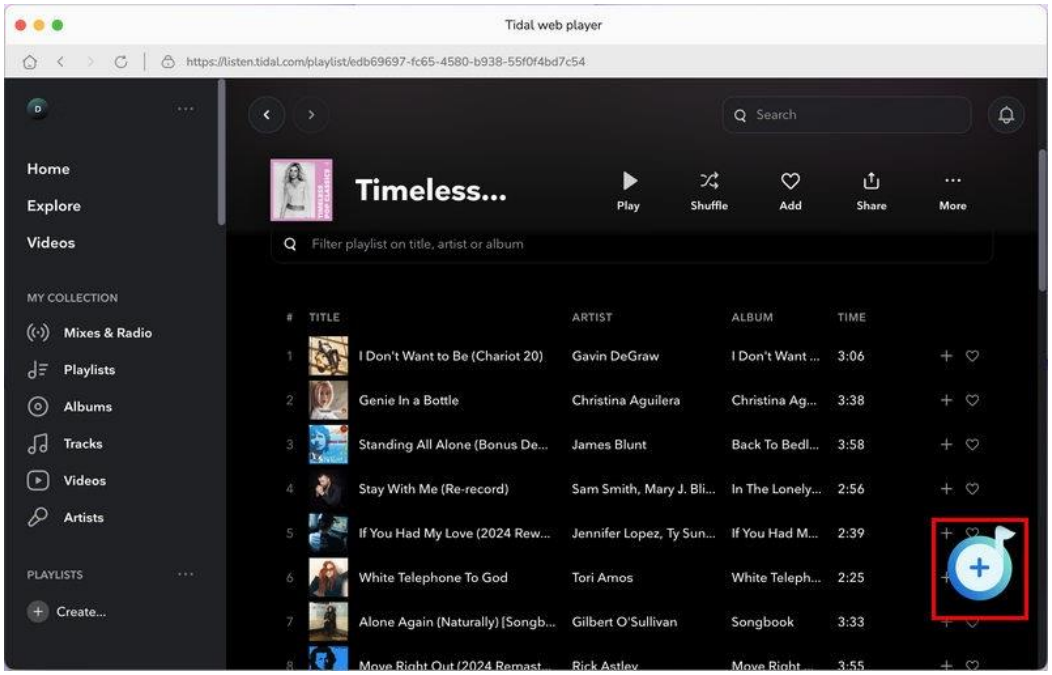
When opening TunePat, you will be presented with two main pages: the primary interface and the integrated Tidal web player. Tidal Web player supports conversion speeds up to 10X. In case the web player doesn't appear automatically, you can access it by clicking the "**Load Web player**" button or the blue "**Add**" button in the middle.

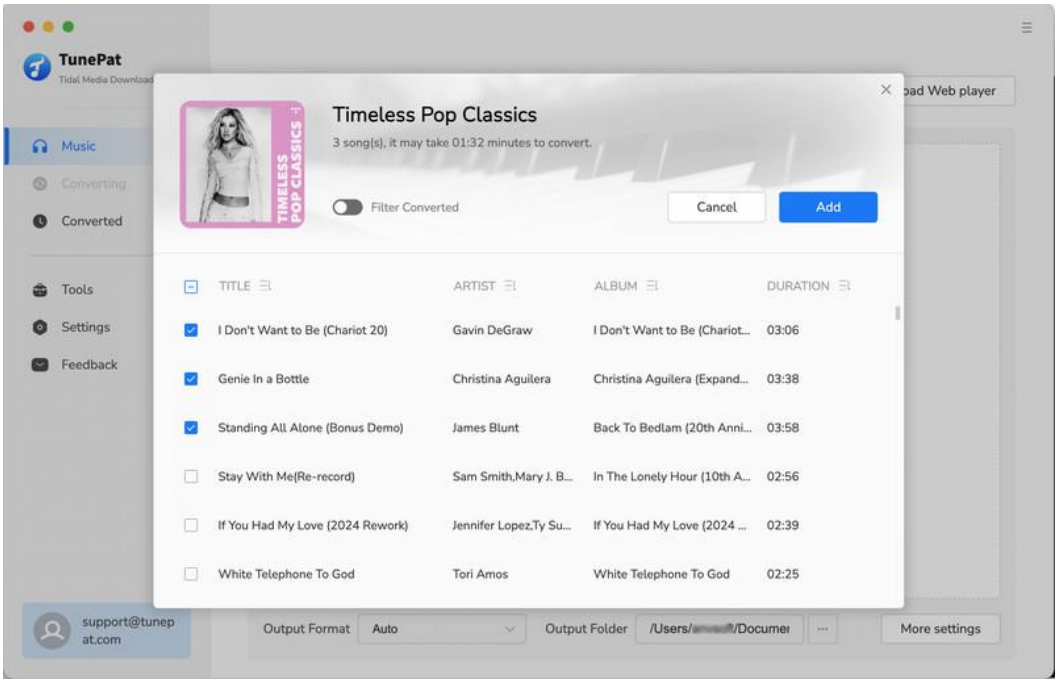


Within the Tidal web player window, you will find on-screen instructions guiding you to click the "**Log in**" button and enter your Tidal account details. Sign in using your Tidal account. Once you have successfully logged in, you will have seamless access to Tidal's library.



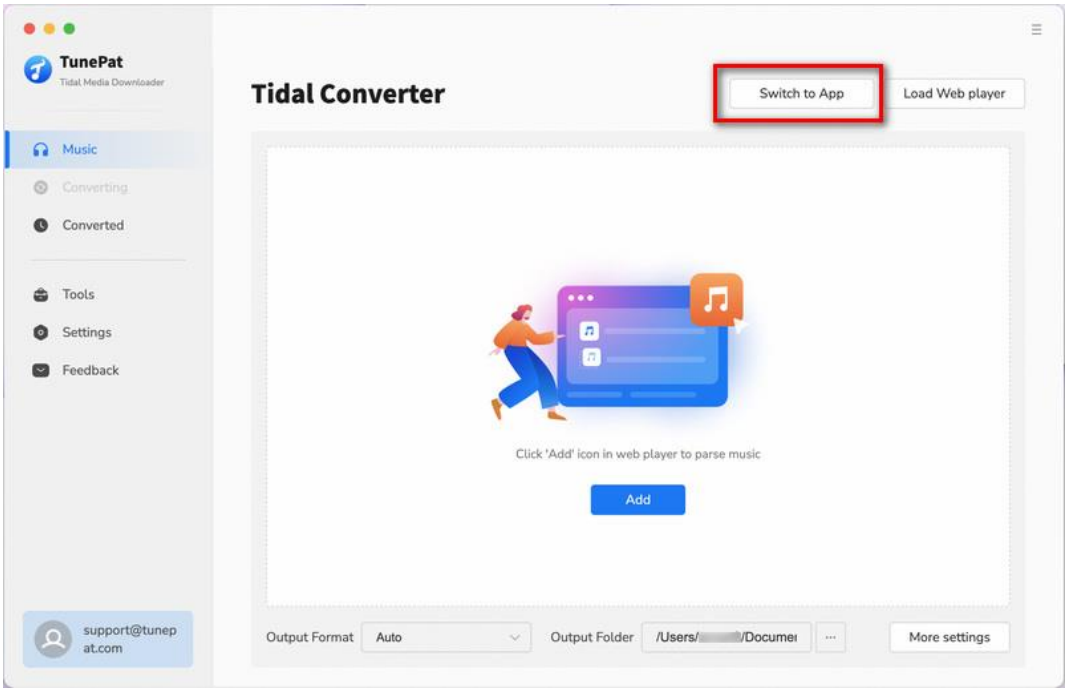
Now, open the desired song, album, playlist, or podcast and select the "**Click to add**" button. This action will prompt TunePat to automatically detect and load the songs. On this page, all songs will be selected by default. You can manually choose the titles by ticking them off and then clicking the "**Add**" button.





- **Get TIDAL Music from the App**

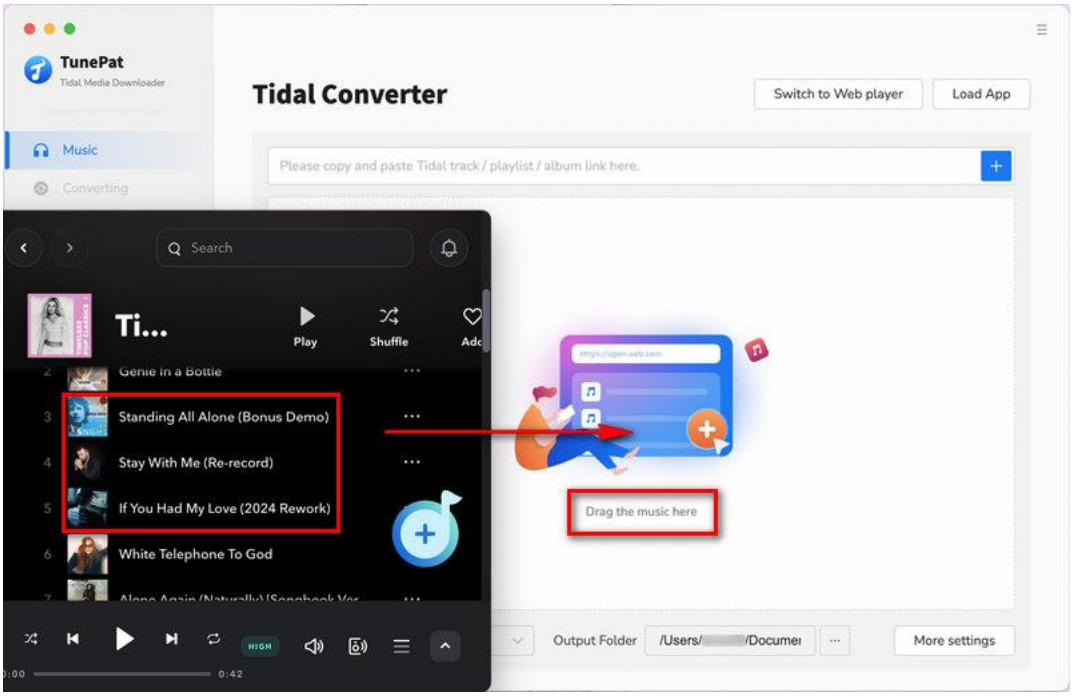
If you wish to convert music from the TIDAL app, you can just click "**Switch to App**". Log in to your TIDAL account. If you have already logged in, you can follow the previous steps to add music from the TIDAL app.

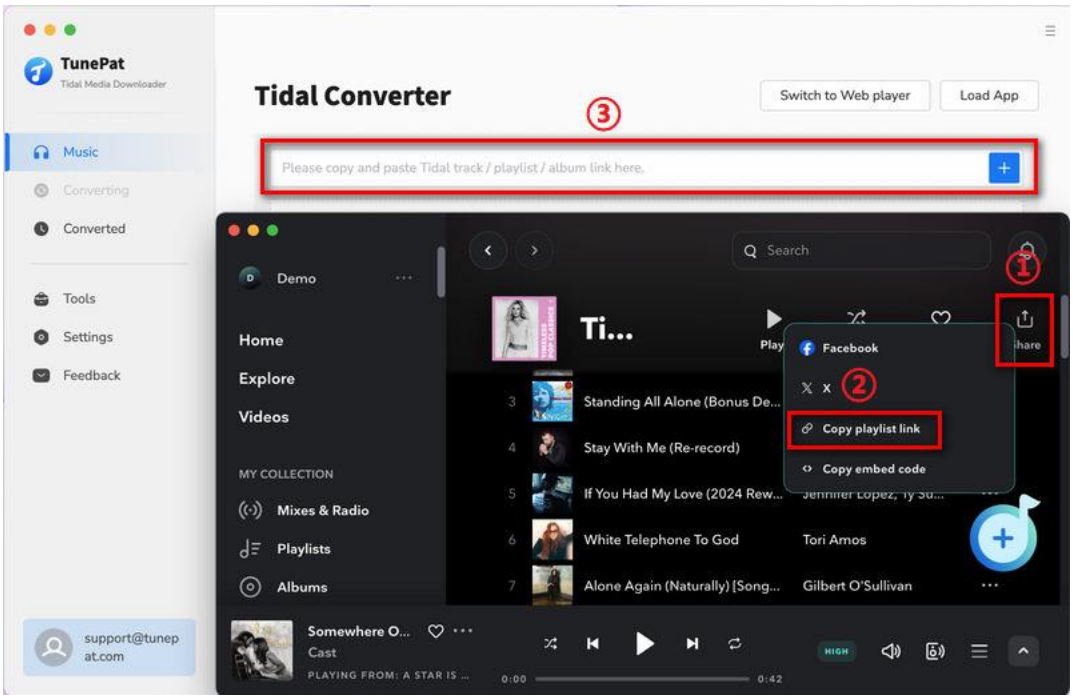


You can use the other two methods:

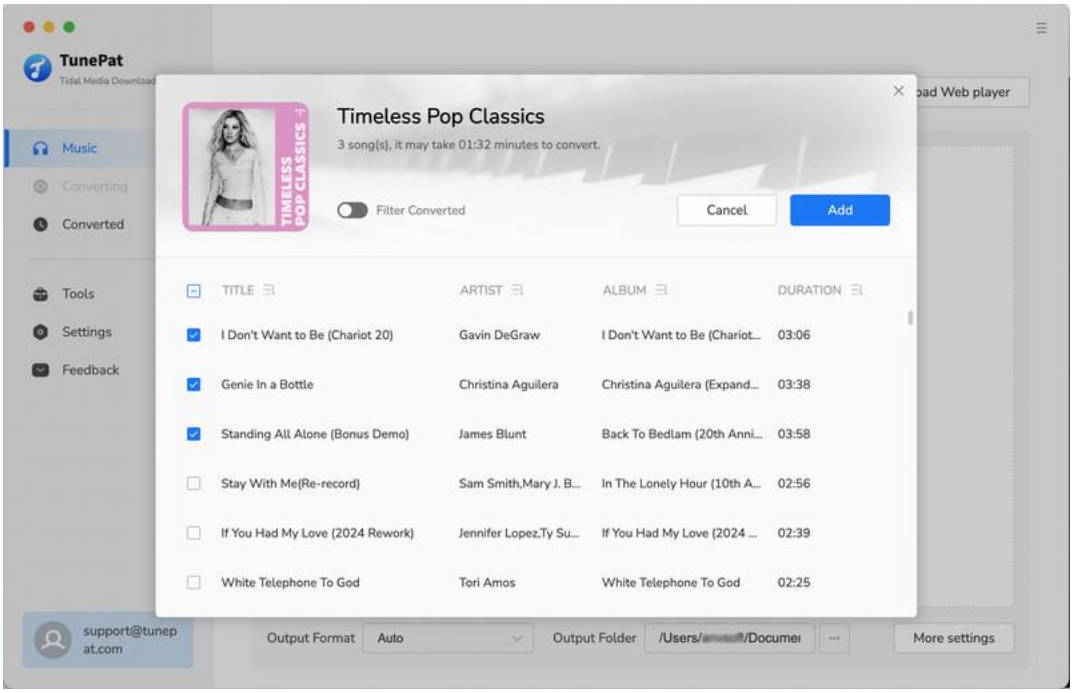
1. Simply drag and drop the desired item to the specified position on the home page interface.

2. Copy and paste its link to the box of TunePat for analysis.





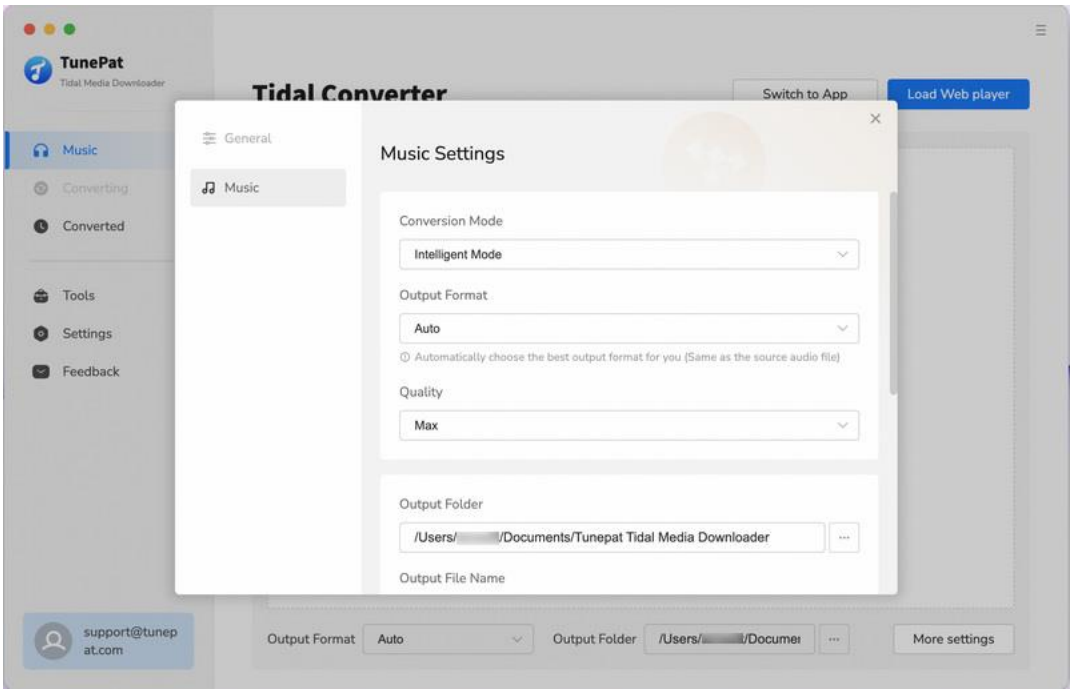
Finally, click the "**Add**" button to import these titles into TunePat.

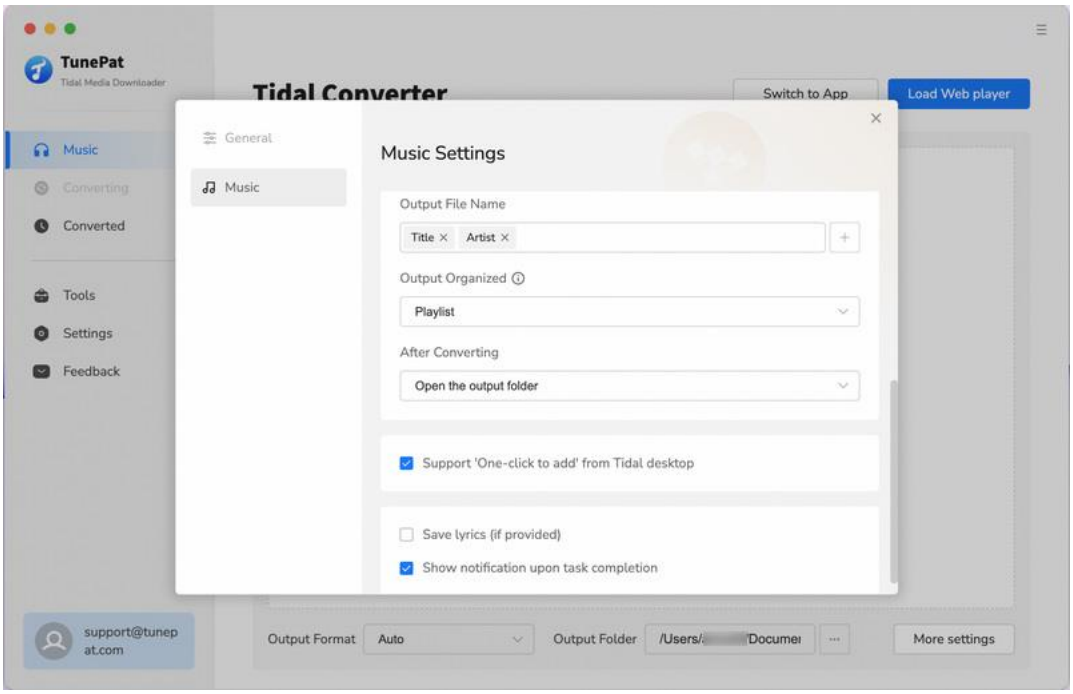


Choose Output Settings

Before proceeding to convert your desired content from the Tidal app or Tidal web player, it is essential to configure the output settings. To do this, click on the **Settings** option located in the lower-left corner of the menu bar. To get the original quality, it is recommended to choose “**Auto**” as the output format. You can also customize the order in which the songs are arranged after downloading.

Tutorial of TunePat Tidal Media Downloader for Mac

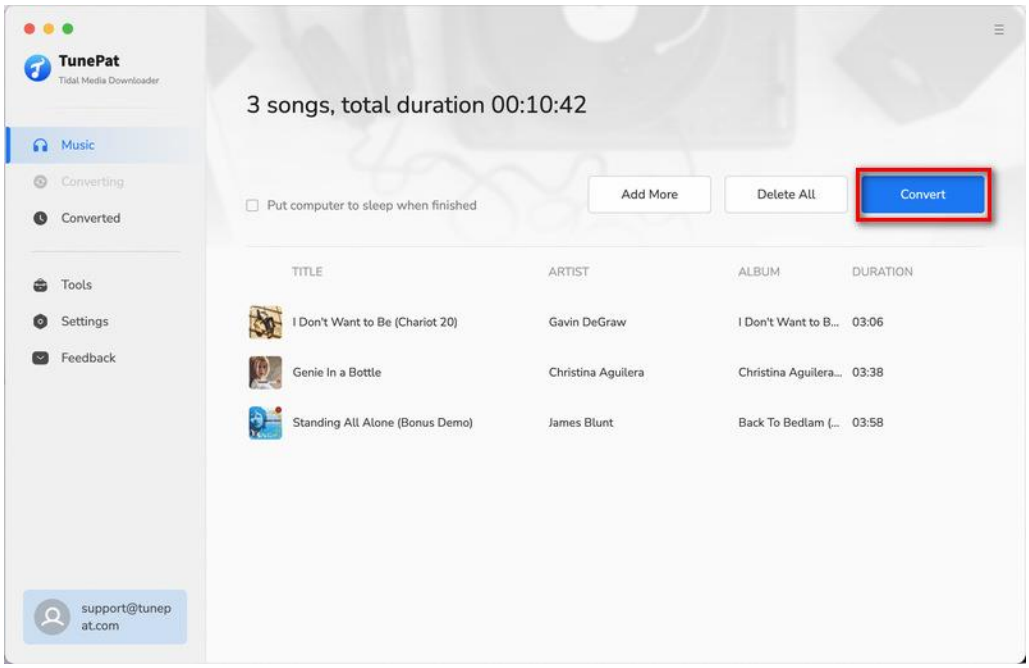


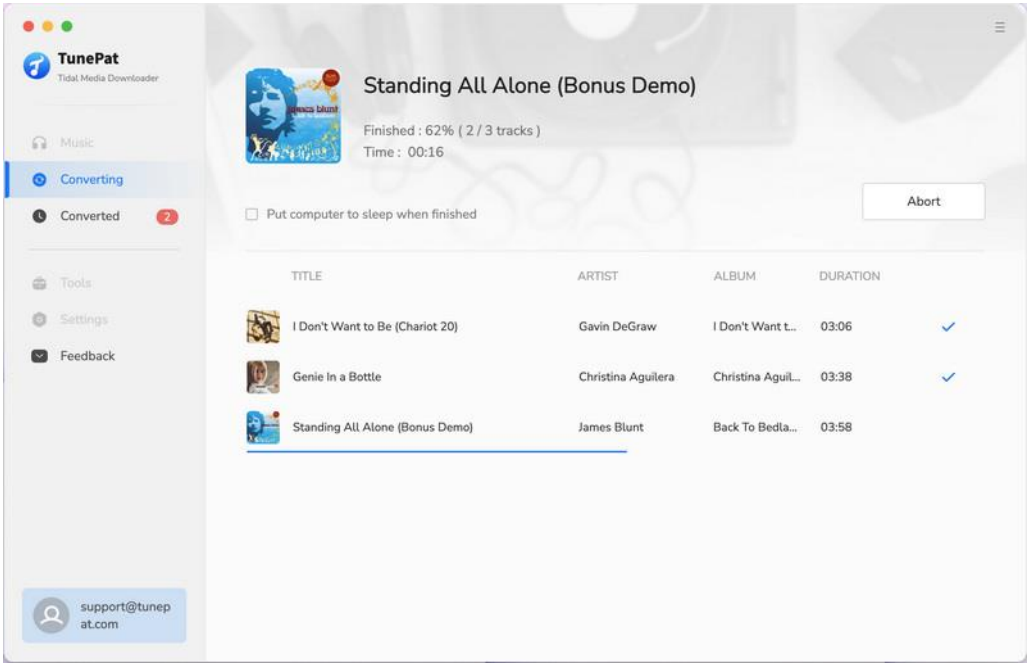


Convert Tidal Music Files to a Mac

The selected TIDAL songs will be saved in the main interface of the program. If you wish to continue selecting more songs for conversion, click the "**Add More**" button on this interface.

Alternatively, click the "**Convert**" button to initiate the conversion process for all the songs listed on the current page. If you accidentally choose the wrong song, you can use the "**Delete All**" button to clear the current list with a single click.





Check Conversion History

Once the conversion is complete, you can navigate to the "**Converted**" module to find the successfully converted Tidal songs. From there, you can directly transfer them to iTunes, or transfer them to any other devices of your choice. This allows you to enjoy your Tidal music tracks anywhere and at any time.
