Log into Tidal Account

Open Tidal Media Downloader for Mac, then you can follow the instruction to click the Log in option to log into your Tidal account. Please note that TunePat will not take any information out of your account.

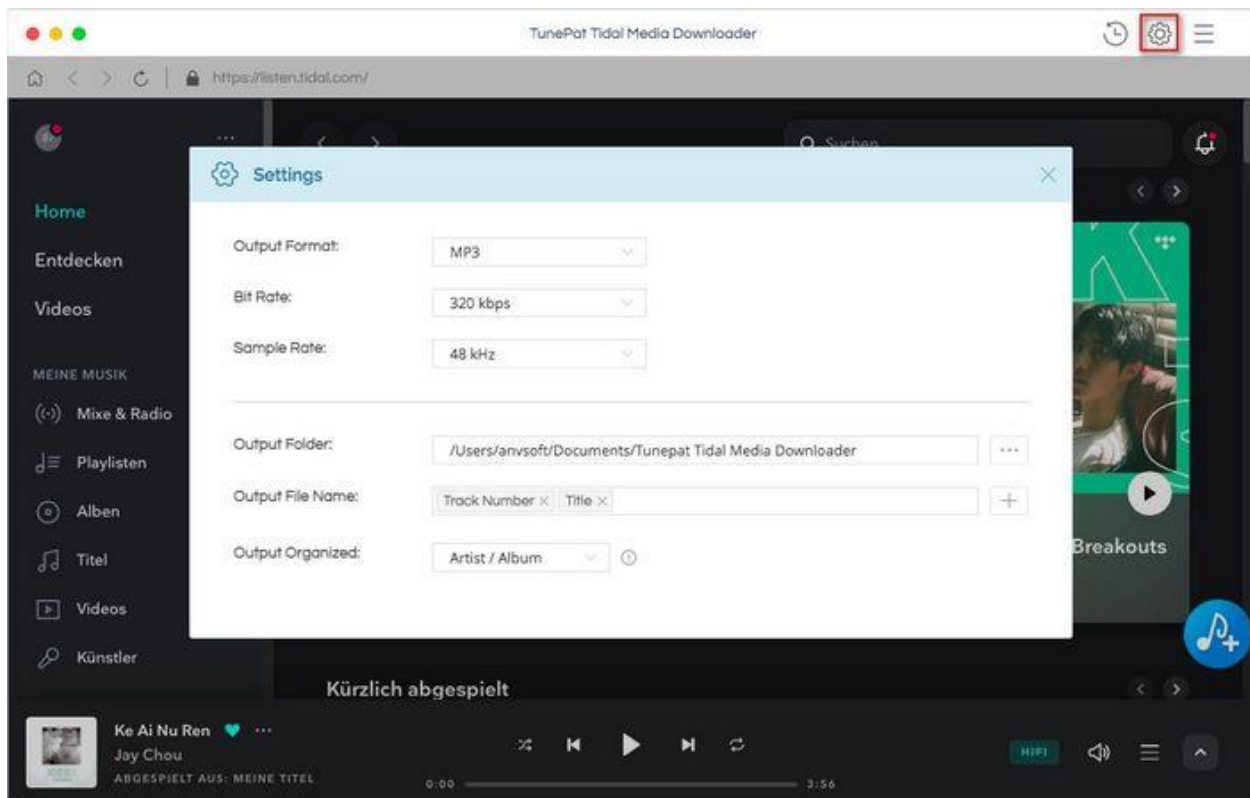

Choose Output Settings

Then, click the Setting icon on the upper right corner to choose the Output Format (MP3/AAC/AIFF/FLAC/WAV/ALAC), the Output Quality (320kbps, 256kbps, 192kbps, 128kbps), and Output Path. In addition, for better organizing your music library, you can save the output audio files into an organized folder like Artist, Album, Artist/Album, or Album/Artist.

Note: If you choose **Auto** as the output format, TunePat Tidal Media Downloader will output the Tidal Music to the original HiFi sound quality by default.

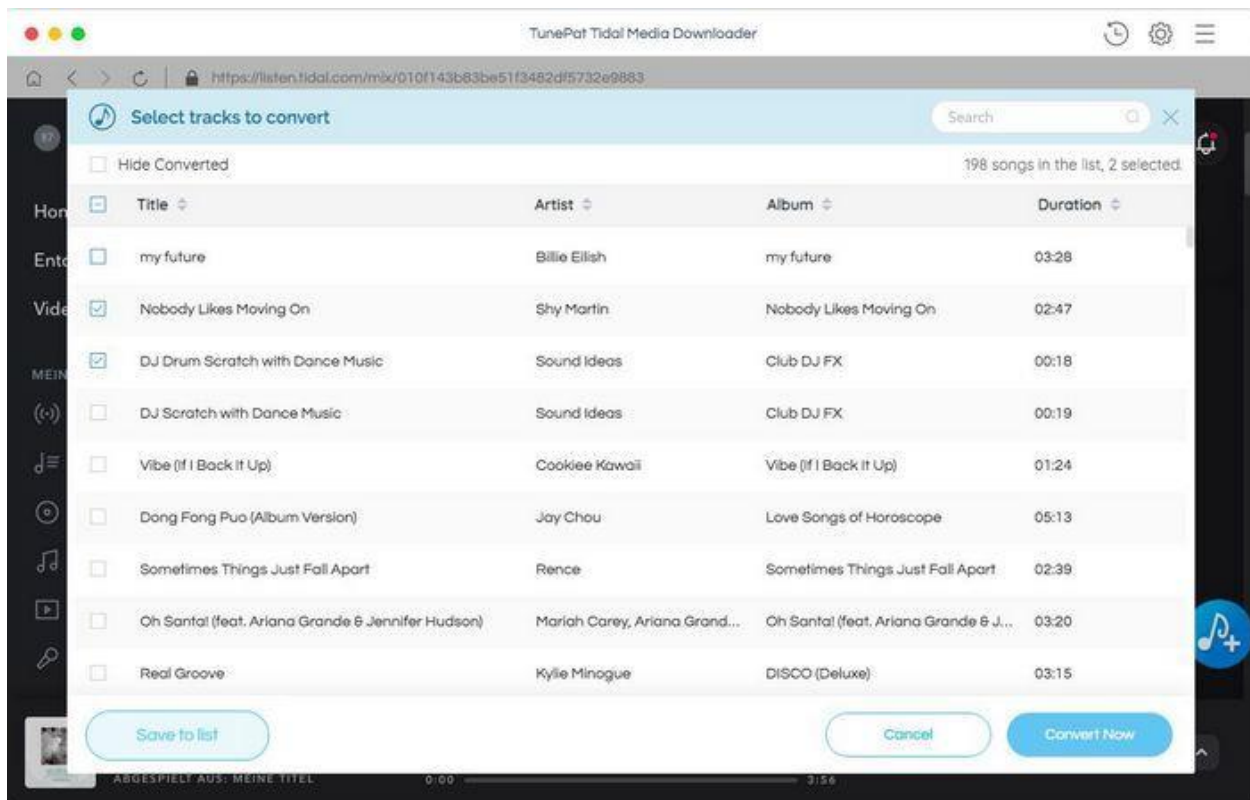

Add Music Files

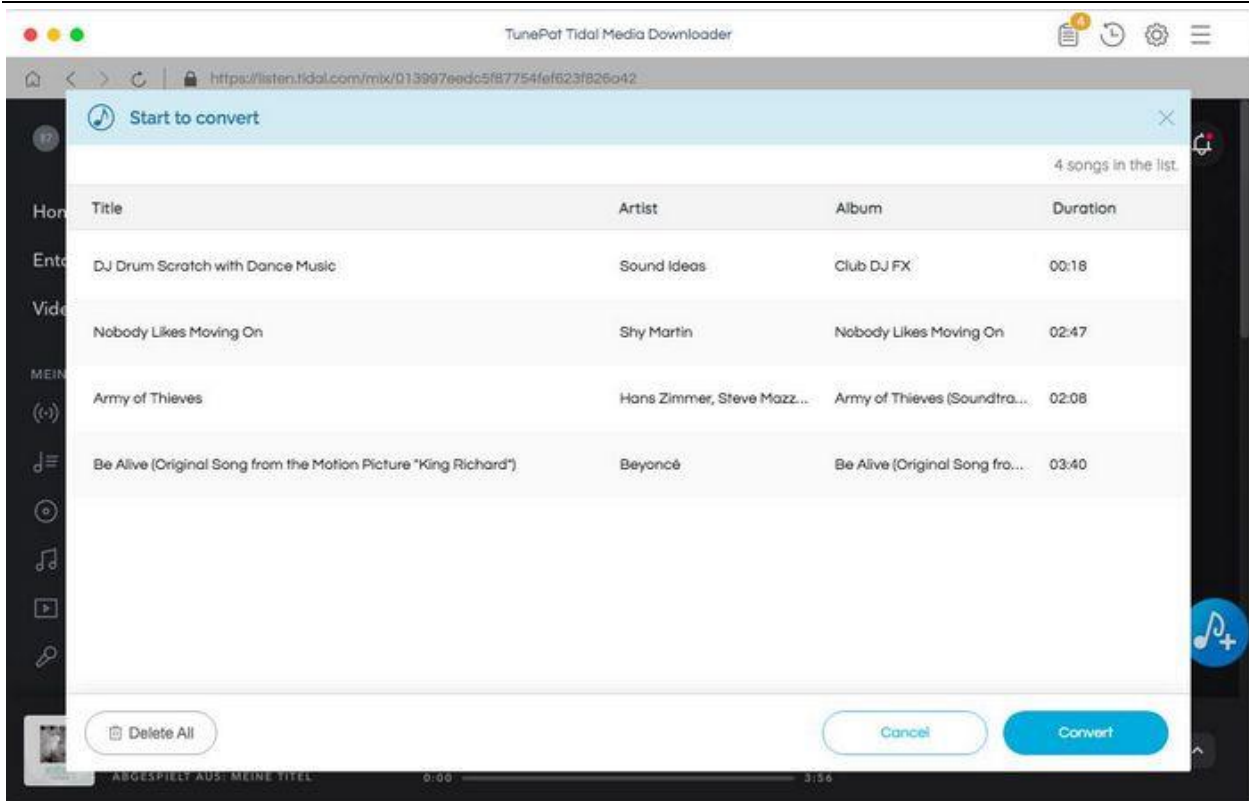

Open a playlist, artist, or album, then click on the  button and select the songs that you'd like to convert from the popup window.

To parsing multiple songs from different playlists, albums or artists in the same time, you can click on the **Save to list** button and the selected songs will be added to the Convert list. After selecting all songs you wish to convert, click **Convert** button to begin the process. Or if you just need to convert these checked items, directly hit on the **Convert Now** option.
